EXAMINER AMENDMENT

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 1/21/08 has been entered.

Claim 85 was cancelled and claims 138 and 139 were added as requested.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Joseph Eng on 2/25/08.

This amendment is made to correct the numbering of the claims as per 37 CFR 1.126. All amendments filed on or after 4/4/07 contained two claims numbered 43. So, the second claim numbered '43' will be renumbered as '44', and the absolute value of all original claim numbers greater than 43 will be increased by 1. Also, all claim numbers recited within the text of a claim will be increased by 1, unless the claim number recited within the claim is "40". In other words, the value of all parent claims recited within a claim will be increased by 1, unless the recited parent claim is claim 40. The amendments are summarized in the following Table:

Rejoinder of Nonelected Material

Previously claims 41-85 (as renumbered) were withdrawn from consideration because they were drawn to non-elected species.

Claim 40 is allowable. The restriction requirement between SEQ ID NOS: 19 and 20, and the restriction requirement among the restricted species of therapeutic and cosmeceutical agents, as set forth in the Office action mailed on 5/19/04 and further clarified in the Office Action of 9/7/05, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claims 41-85 (as renumbered), directed to various species of therapeutic and cosmeceutical agents, are no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.
